

## NORDHAVEN QUARTERLY SOFTWARE REPORT

Q3 2021

"M&A momentum in the Nordic software space remains strong"

## **KEY OBSERVATIONS Q3 2021**

CLAIRFIELD

**NTERNATIONAL** 

### Q4 2018 - Q3 2021

#### **IDENTIFIED # OF NORDIC SOFTWARE TRANSACTIONS**

#### EV / SALES 2021E INTERNATIONAL LISTED SOFTWARE COMPANIES<sup>1</sup>

- Nordhaven has identified 42 software transactions in Q3 2021. This is the highest number of Q3 software deals in the Nordics since we started counting back to 2014 (100% increase from Q3 2020).
- Last twelve months counts an impressive total of 176 Nordic software transactions which is the highest number of observed software transactions over a twelve months period.
- After several guarters of exceptionally high IPO levels, we see a guarter with somewhat lower activity compared to Q1 and Q2 2021. At the same time, we see that PE companies continue to invest heavily in Nordic software companies (both new platforms and through add-on investments).
- The software industry has proven to be one of the most resilient sectors during the pandemic. Publicly listed companies have experienced another strong guarter achieving a multiple expansion with share prices improved on average with 5% during the quarter<sup>1</sup>.

#### INCLUSION CRITERIA

Announced transactions where a Norwegian, Swedish, Finnish, Icelandic or Danish-based software company has been sold during the quarter. The company sold must have the majority of its operations in either of these countries. Consultancies, IT-services and resellers are not included. Neither are media and gaming software with significant content creation. Hardware oriented business models with significant COGS have been excluded. Minority transactions, IPOs or transactions that does not create a "change-of-control" situation have also been excluded. Mergermarket is our primary source for identifying eligible transactions. Transactions below 5 MUSD have not been included.

- Nordhaven has identified 42 Nordic software transactions in Q3 2021.
- PE investors continue to play an important role in the Nordic software transaction market. In line with the previous quarters in 2021 PE investors represent more than 50%+ of the transactions (64% in Q3 versus 53% in Q2 and 56% in Q1).
- Denmark stands out as the most active country in Q3 as 38% of the software transactions was Danish targets (compared to 24% in Q2 2021). The Swedish market remains strong with ~1/3 of the transactions in Q3.
- Nordic bidders was the most active buyers' group with 52% of the deal volume (down from 67% in Q2 2021). Buyers from Europe outside of the Nordics accounted for 26% of the transactions in Q3 2021.
